

EQUIPMENT RENTAL SOLUTIONS

Ranger Energy Services offers a wide variety of equipment rental solutions for use in standalone applications or in a comprehensive solution with our high-spec service rigs, rig-assist snubbing and drillout iron/manifolds for extended reach frac plug drillout and flowback completions and workovers. Ranger comprehensive solutions simplify logistics, maximize operational efficiency, minimize NPT and are more economical than using coiled tubing. Ranger equipment rentals are also ideal for efficient production maintenance, major workover and plug and abandonment operations.

RANGER LEADS THE WAY

WHY CHOOSE RANGER EQUIPMENT RENTALS?

- Experienced & highly qualified team
- State-of-the-art equipment
- High performance culture
- Robust, behavior based QHSE management system
- Continuous improvement program
- Innovative technology development
- Technical solutions for today's complex wells

EQUIPMENT

Our state-of-the-art inventory of ancillary rentals meet API standards and are maintained via a structured program to safely meet your well service requirements.

PERSONNEL

Our experienced rig crews can safely and effectively operate in all situations. We provide our personnel with specialized classroom training including well control to build proficiency in the latest techniques and QHSE procedures.

QHSE

Ranger employs a robust behavior based HSE Management System and a QMS that aligns with API Q2 specifications including supplemental standard operating procedures.
